

The Internet Society's Community Grants Programme

Are you a member of the Internet Society?

Are you affiliated with an Internet Society Chapter?

Are you working on or interested in developing projects that increase access to the Internet, educate users, or otherwise strengthen and support Internet development in your community or across the globe?

Could you use additional funding to make your project a success?

The Internet Society's Community Grants Programme helps Chapters and Members advance the Internet and promote the organization's mission and goals through a wide range of local and regional projects.

**Let us help you make a difference.
Apply for an Internet Society Community Grant.**

For details about eligibility, deadlines, and past awards, see
