Overview

Welcome to the Internet Society Chapter Portal (AMS)!

The Portal allows you to perform the following tasks right from your web browser:

- Join ISOC
- Donate to ISOC
- Access “Connect”
- Manage your account, including email subscriptions, password, and personal information
- Perform Chapter administrative functions
  - Manage Chapter Information
  - Manage Chapter Members and Renewals
  - Manage Chapter Members and Officers/Roles
  - Access Chapter Reports and Documents

The purpose of this guide is to provide you with detailed instructions, screenshots, and helpful hints for using the Portal, especially when performing Chapter administrative functions.
Accessing the Portal

To access the portal, point your web browser to: portal.isoc.org

Log In

Username:
Password:

Remember Me

Log In

Forgot your username or password?

Not a member yet? Sign up!

Need Help?

If you need help using the membership and chapter portal, check out our Frequently Asked Questions, or send an email to amshelp at isoc.org for direct support.
Logging In

Enter your username and password in the fields and click Log In. Tick the “Remember Me” checkbox if you would like to stay signed in to the Portal. If you have forgotten your username or password, click the “Forgot your Username or Password?” link to request your username or request a password reset.

Retrieving Your Username or Resetting Your Password

Clicking the “Reset Password” button will send you an email with instructions on resetting your password. Clicking the “Retrieve Username” button will send you an email reminding you of your forgotten username.
**Help and FAQ**

On the login page, you will find a “Frequently Asked Questions” link. The Frequently Asked Questions / Help page provides you with additional assistance with using the portal, including a downloadable Chapter Officer Guide and Member Portal Guide.

**I have forgotten my password or it is not being recognised. How can I recover or reset my password?**

1. Click “Forgot your Username or Password” link on the portal Home page, or visit [https://portal.isoc.org/forgot-uid](https://portal.isoc.org/forgot-uid)
2. Enter your Username as instructed on the page. If you were a member of ISOC before the new system rolled out on November 17th, 2009, chances are very high that your Username is your email address. If you signed up after November 17th, 2009, then your Username could also be something besides your email address.
3. An email containing an encrypted URL will be sent to the email address associated with your account. Be sure to click the URL within 120 minutes – it is a time-limited URL for security reasons.
4. The password-reset page will display, allowing you to change your password online. Once you have successfully changed your password, you will also be logged into the portal.
5. If you are still having trouble logging in, download our AMS Member Guide Guides and Documents, or contact amshelp(at)isoc.org

**Why does the portal tell me "User already exists" or "Email already exists" when I try to sign up?**

The portal is designed to only allow each email address or username to exist once. This prevents duplicates, and is better for security. If you are receiving this message, then the Username and/or your email address already exist in our database. Try using the “Forgot your Username or Password” link on the portal Home page, or visit [https://portal.isoc.org/forgot-uid](https://portal.isoc.org/forgot-uid)
Additional Things to Know

If you have been logged in to the Portal for longer than 15 minutes and not performed any actions, the system may time out and display a new page with the error message below:

![Internet Society portal security error](image)

**Don't worry!** Nothing is wrong; this is the expected behavior of the Portal. You can log back in again by clicking the “log in” link in the text or the “Home” link in the menu, which takes you back to the Portal homepage. Simply enter your username and password and you will be logged back in to the site.
Language Selection and Default Menu Options

Most functions and pages of the ISOC portal are available in four languages: English, French, German, and Spanish. You can select a default language on your Profile page.

Before you have logged in, you will see links for Home (returns you to the Portal homepage) and Donate (takes you to the ISOC donation page). The “Go to Connect.internetsociety.org” button takes you to Connect. Finally, if you need to access the ISOC website from Portal, you can click on the Internet Society logo in the upper left corner of any Portal page.
Member Self Sign-up

When users initially sign up to join ISOC, they see the following screen. Only a few fields are displayed. The member can provide additional information by editing his/her profile once he/she has become a member. As of December 2016, the user can also opt in to receiving ISOC communications.
Once the member has successfully entered the required fields and clicked “Join Now,” he/she has become a member. A confirmation message is displayed, along with the option to apply for Chapter memberships. The member is not required to apply at this time and can apply later through links on the Portal homepage or “My Account,” if desired. **Note: As of December 2016, members will receive a membership confirmation email and must click the link in this email within seven (7) days to confirm their email address, or their membership will be revoked.**
Users are encouraged to join multiple chapters. However, users are prevented from joining more than four (4) chapters within a 24-hour period. This helps reduce “spam” member applications.

Also, when the user clicks the button to submit a new chapter membership request, this does not automatically grant membership in a chapter; it notifies the appropriate chapter leader(s) who will consider the user’s request for membership.
City is requested for all members applying to all chapters – if they have not specified a city, all members will see this page when applying to any chapter worldwide.

The State/Province field is requested only for those members with addresses in the U.S. or Canada. For other users, the field will be greyed out.

**Chapter Membership**

In order to process Chapter Applications, we also request that members update their profiles with City information. For many chapters, the City field helps them better understand the demographics of their members. Residents of the US & Canada will also be asked to provide State information.

* City

State/Province

* Country

**NOTE:** Any updates or changes to the fields above will also result in new data being saved to your profile.
When the user has successfully submitted the chapter membership request, the following confirmation screen is displayed:

Thanks for expressing interest in joining an Internet Society Chapter!
A chapter representative will be contacting you soon to discuss joining the indicated chapter(s).
Please note that indicating interest in a chapter does not mean automatic enrollment - the chapter representative will explain the exact membership terms for his or her chapter in detail.

If the user returns to the Join page to join more chapters, any chapters awaiting approval will appear with a message indicating that the application is pending review.

Users can continue to join more chapters at this time, provided they do not try to join more than four (4) chapters within a 24-hour period.
Portal Homepage

After you have logged in to the Portal, you will see some additional information on the homepage, including links to manage your account and chapter memberships, as well as take advantage of member benefits such as Inforum and Connect.

Logged-In Menu Items

In the navigation menu, you will still see the Home and Donate links, as well as the “Go to Connect.internetsociety.org” button and the ISOC logo that links to the main ISOC homepage. Two additional menu options will also appear in the navigation: My Account and Chapter Administration. (If you are not an ISOC chapter officer, you will not see the Chapter Administration link.)
Additional Homepage Items

Your name, expiration date, and ISOC donor level, as well as a Log Out link, appear at the top of the homepage. Underneath that, you will find a list of quick links for managing your account and chapter memberships, as well as links to Inforum and Connect.
**My Account Menu**

When you mouse over the My Account navigation link, you will see a few drop-down navigation selections that allow you to access your personal data. From here, you can update your profile (including language and date-format preferences), indicate interests, or subscribe to newsletters. **All users will have this menu.**
View/Edit Profile

The View/Edit Profile page allows users to edit their profile information.

Edit Profile

Tell us a little more about yourself so we can stay in touch and tailor our programmes and services to your interest.

Join a Chapter
Join Chapter

If you click the Join a Chapter button, you are taken to a form that allows you to select which chapters you are interested in joining. Chapters for which you are already a member will have a check box ticked and greyed out.

Join a Chapter

An Internet Society Chapter brings together individual members of the Internet Society who share an interest and belief in the Internet Society's principles and mission and who are committed to furthering the Internet Society's goals and objectives within your geographic or special interest area.

By joining a Chapter, you become more involved in the future of the Internet by participating in activities or projects organised by the Chapter.

Chapters bring focus to local and regional issues affecting the Internet and ensure for those issues to be recognised and included in the global discussions. Additionally, joining a Chapter will allow you to network with peers, attend local events and share new ideas.

- Argentina Chapter
- Armenia Chapter
- Australia Chapter

The rest of the Join process is the same as described in the “Member Self Sign-up” section above.
Interests & Subscriptions

The Interests & Subscriptions page allows you to indicate what you are interested in hearing about from ISOC.

Interests & Subscriptions

Please update your Topics of Interest and Subscriptions.

Topics keep track of the subject areas in which you are most interested. By providing this information in your profile, certain features of the site will reflect your interests more directly and allow us to serve you better.

You may also use these Topics to subscribe or unsubscribe from one or more newsletters.

Log Out

Clicking the Log Out option from the My Account drop-down allows you to log out of the Portal. You may also log out from the Portal homepage by clicking the “Log Out” button.
Chapter Administration

The Chapter Administration menu item allows you to access Chapter management functions, if you are an ISOC chapter officer.

Managing Multiple Chapters

If you are a chapter officer who has access to more than one chapter, clicking on the “Chapter Administration” menu link will display a page that shows you the Chapter(s) for which you are an officer. Clicking a chapter name from this page leads directly to that chapter’s Roster page.
Chapter Administration Menu

Once you have selected a chapter to manage, the navigation menu changes, containing links to the various Chapter administrative tasks described below.
Viewing the Member Roster

This page displays all the members of a chapter. This is the landing page for the Chapter Administration section, unless a user has access to more than one chapter as an administrator, in which case the “Chapter Administration” page above is the landing page.

At the top of the roster page, the total number of members is displayed, as well as a link to export the roster to a CSV file.
Next, the member roster is displayed in a grid. It can be filtered and sorted in many ways.

From this view, you can also add a member, edit/view or send a message to existing members, or deactivate an existing member. Each of these topics is explored in more detail in the sections that follow.

</tbody>
</table>

Filter the member list by selecting a data point and entering a value, then clicking "Search." Click "Clear" to undo the filter.

You can sort members by clicking any column name, such as First/Last Name, City, Join Date, etc.

Click on any member’s ID to view or edit their profile.

The Deactivate button provides one-click deactivation from your chapter. Deactivated members do NOT appear on “Process Renewals.”

Add Member(s) opens the Add Members page.

Add member(s) | Send message to members
Send Message allows you to message your members (all or just individuals). Use in combination with Search to group members for targeted mailings.
Viewing and Editing Member Details

The Chapter Member page allows chapter officers to edit a chapter member’s profile.

![Edit Profile Form]

An asterisk (*) indicates a required field.

**Personal Information**

- **Member ID**: 43070
- **Email**: andrew.crane@futurevalueconsulting.com
- **First Name**: Andrew
- **Middle Name**: G
- **Last Name**: Crane
- **Gender**: Male

**Preferred Language**: English

**Contact Information**

- **Select Address Type**: Business Address

**Preferred Address?**

✓
In addition to regular profile information, special Chapter-specific information is displayed on the page, including Join Date, Expiration Date, and a Comments box. Comments are not visible to the member, but are visible to and can be edited by all Officers from any chapter to which the member belongs.
**Sending Messages to Members**

To send a message to all chapter members (or a subset of chapter members), click “Send message to members” from the Roster page.

You may filter the list on the Roster page, or you may do so on the Chapter Messaging screen. You must tick the checkbox under “SELECT” next to each member you wish to message.
Once you have selected the members to whom you would like to send a message, click “Compose message to selected members.” The Chapter Messaging interface will be displayed.
You can use the WYSIWYG editor to compose your message, toggle to HTML code view, and preview your message right in your web browser.

You can also send yourself a preview of the message so you can see what it looks like in your email program.

When you are ready to send the live messages, click “Send Emails Now.”
Adding Members

The Add Members page allows you to add members by manually entering a member’s information into the table displayed on this page. You can add more than one member at a time by clicking “Add another row” to display additional rows in the table.

When you are done adding members, click “Submit New Members.”
If the member you are adding already exists in Aptify, you will see this yellow highlighting.

This is just for your information, and is normal. It just lets you know that changes to the person’s record can also affect other chapters. Click Continue to add the person to your chapter. It will not create a duplicate of the person or have any other negative effect.

If there is a problem with any information you are entering, you will see red highlighting with an error message. For example, if the Action Type is not selected, the following error will appear:
Approving Chapter Members

The Chapter Membership Approval page shows all potential members waiting for your approval. Potential members are not full members until you approve them.

Once approved, the new Member will appear on the Roster page.

Denied applicants will “disappear” from view, but the person can still apply again.

You can also email applicants from this screen.
Renewing Chapter Members

The Chapter Renewals page allows you to review and then renew Members who may be expiring/have already expired. Emails indicating chapter membership renewal will be sent automatically by AMS to the member.
Adding and Editing Chapter Officers and Roles

The Chapter Leaders page displays all current and past chapter officers. Also, any officers with Chapter AMS Admin role (can be granted to any officer) are able to add officers from the current Member Roster without needing to contact ISOC global. You can also extend or terminate an officer’s tenure using the Edit Role feature.
Adding Officer Roles

The Add Leader page allows you to add roles for chapter leaders.

Note: Officers can carry multiple roles with different end dates. For instance, an officer can have both the Vice President and AMS Administrator roles. This is typical for most chapters, and means that these officers will have to have each role added separately.
Editing Officer Roles

The Edit Leader Role page allows you to update an existing chapter leader role, such as extending or ending the tenure.

**Edit Leader**

On this page you can extend the term, disable the current role for this Chapter Leader, or disable this person as a Chapter Leader.

*To extend the term for this Chapter Leader* (e.g. if your election date is upcoming, but past the date indicated currently), change the End Date to a date in the future.

*To terminate a role* for the Chapter Leader, change the End Date to the actual end of term date (or today's date).

*To remove the Chapter Leader from a specific role,* you will need to disable each current role that this Chapter Leader holds with your Chapter.

*To add an additional role for this Chapter Leader,* please use the Add Chapter Leader Role page.

<table>
<thead>
<tr>

</tr>
<tr>
<td>Start Date</td>
<td>4/11/2016</td>
</tr>
<tr>
<td>End Date</td>
<td>12/31/2016</td>
</tr>
</tbody>
</table>

Note that the role cannot be changed on the “Edit Leader” screen. To add a new role for an existing officer, you need to use the “Add Leader” function.
Viewing and Editing Chapter Details

The Chapter Details page allows you to view and edit information about a chapter. The fields under Chapter Details control how the chapter information is displayed in the AMS.

You can edit the chapter details directly on this page and click "Save Changes" when you are finished.
Your chapter can also have one or more “web presences” listed. This allows your chapter to specify multiple URLs for web pages related to your chapter, such as the main chapter website, but also social networking pages.

**Web Presence**

Chapter Web Presence manages the URLs where a given chapter may have some pages or presence on the Internet. Besides the "main" chapter website listed above, these URLs are for items like Facebook pages, RSS feeds, etc. Please include any URLs related to your chapter below - these will then appear on the ISOC Chapter listings.

**Note:** Click the Link Title to edit that particular URL.

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

[Add Web Presence]
Click “Add Web Presence” to add a new record:

To edit an existing web presence, click “Edit” under the “ACTIONS” column. This will bring up the same form as the Add Web Presence form, but with the information pre-filled and ready for you to edit.

To delete an existing web presence, click “Delete” under the “ACTIONS” column.
As of December 2016, Chapter Officers with “Edit Access” permission role types are permitted to create, edit, or delete Chapter Activities. All other Chapter Officers can see Chapter Activities, but they cannot add, edit, or delete Activities.

### Chapter Activities

The chapter activities panel tracks chapter events for evaluation purposes.

Add Chapter Activity
Click “Add Chapter Activity” to add a new activity:

Montserrat Chapter (Test chapter)

Add Chapter Activity

* Event Name
* Country
* Date 1/13/2017
* Number of Participants

Add  Cancel

To edit or delete an existing activity, click “Edit” or “Delete” under the “ACTIONS” column. Please note that Chapter Activity records that are marked as ISOC Approved cannot be edited or deleted and the associated buttons have been deactivated.
You may also enter and edit your Chapter Membership Terms from the Chapter Details screen.
Click the “Edit Terms” button to edit your chapter membership terms using the WYSIWYG editor.
When you are finished making your edits, click “Submit Changes” to return to the Chapter Details screen.
**Viewing Chapter Reports**

The Reports page allows chapter administrators to view various reports related to the chapter. You can view or print these reports.
