Individual Members
www.internetsociety.org/membership
Everyone is welcome to be an Internet Society Member! Individual Members around the world are key to providing the Internet with global perspectives and reach, shaping our vision that the “Internet is for everyone”. Individual Members are integral to the Internet Society’s efforts to ensure the Internet remains an open and trusted platform for expression and innovation.

Chapters
www.internetsociety.org/chapters
Our 106 active Chapters around the world make important connections between global issues and local, regional, and topical Internet priorities. Chapters function as independent and vibrant engines for advancing an open and accessible Internet in their communities, energizing Members and working with businesses, government agencies, and civil society groups. Collectively, they operate as part of a dynamic and interdependent network, sharing expertise and collaborating on projects to maximize the impact of their work.

Organization Members
Internet Society Organization Members engage with other stakeholders worldwide to ensure the Internet remains an accessible and secure platform for creativity, economic opportunity, and growth. Through support for programmes, events, and other activities, Organization Members benefit uniquely from access to technical, economic, and policy-making venues and influence on critical issues. Through participation in the Advisory Council, Organization Members have meaningful impact on the development and evolution of work across the Internet Society’s strategic initiatives.

Related Organizations

IETF
A large, open international community of network designers, operators, vendors, and researchers concerned with the evolution of the Internet architecture and the smooth operation of the Internet. Open to any interested individual, the actual technical work of the IETF is done in its working groups, organized by topic. The Internet Society is the organizational home for the IETF.

www.ietf.org

IAB
The Internet Architecture Board is chartered as a committee of the IETF and as an advisory body of the Internet Society. Its responsibilities include oversight of the architectural aspects of the IETF’s work, Internet standards-development process oversight and appeal, and appointment of the RFC Editor. It is also responsible for management of the IETF protocol parameter registries.

www.iab.org

W3C
An international consortium in which more than 350 organization members, a full-time staff, and the public collaborate to create Web standards and guidelines to ensure long-term growth of the Web. W3C is run jointly by the Massachusetts Institute of Technology Computer Science and Artificial Intelligence Laboratory in the United States, the European Research Consortium for Informatics and Mathematics in France, and Keio University in Japan.

www.w3.org

ICANN
The Internet Corporation for Assigned Names and Numbers (ICANN) is a nonprofit that coordinates the system of unique names and numbers needed to keep the Internet secure, stable, and interoperable.

www.icann.org

Public Interest Registry
Created by the Internet Society in 2003, the Public Interest Registry is a nonprofit corporation charged with managing the .org domain space in the public interest. The Public Interest Registry’s distributions to the Internet Society, which is its sole member, has enabled the Internet Society to extend its activities in all critical technology and policy development areas.

www.pir.org

ECOSOC
The United Nations Economic and Social Council was established under the United Nations Charter as the principal organ to coordinate economic, social, and related work of the 14 UN specialized agencies and commissions. As an accredited organization with Consultative Status, the Internet Society attends and submits statements at key United Nations meetings and conferences to share the vision and perspective of the global Internet Society community.

IGF
The United Nations created the Internet Governance Forum to continue the work of the World Summit on the Information Society by bringing together stakeholders from government, industry, and civil society to discuss Internet governance issues at a series of annual meetings.

www.intgovforum.org

NRO and RIRs
The Number Resource Organization (NRO) is the coordinating mechanism for the five Regional Internet Registries (RIRs). The RIRs—AFRINIC, APNIC, ARIN, LACNIC, and the RIPE NCC—ensure the fair and equitable distribution of Internet number resources (IPv6, IPv4 addresses and Autonomous System (AS) numbers) in their respective regions. The NRO exists to protect the unallocated Internet number resource pool, foster open and consensus-based policy development, and provide a single point of contact for communication with the RIRs.

www.nro.net

OECD
The Organisation for Economic Cooperation and Development is composed of 34 member states with a shared commitment to democratic government and a market economy. The Internet Society has a special interest in the OECD’s Committee for Information, Computer, and Communications Policy, which deals with issues arising from the digital economy.

www.oecd.org

WIPO
The World Intellectual Property Organization (WIPO) is an agency of the United Nations dedicated to developing a balanced and accessible international intellectual property (IP) system. WIPO has granted the Internet Society Permanent Observer status, allowing the Society to be recognized as a participant by the organization’s member states and to interact with WIPO staff on important intellectual property issues.

Our Supporters

Donors are a key part of Internet Society’s vital community of supporters. As a result of their contributions, advances have been made in Internet security and resiliency, regional connectivity and global outreach, fellowship and educational opportunities, and a growing number of projects bringing Internet access to local communities. These achievements are concrete examples of the impact donors can have in supporting our mission to ensure the “Internet is for everyone”.

If your name has been inadvertently omitted or incorrectly spelled, please accept the Internet Society’s sincere apologies and contact us at PartnershipDevelopment@isoc.org so we may correct your record.
