Chapter AC Meetings

- Held 3 times per year
- 2017 Meeting I - 7 March 2017
 - Quorum (≥ 19) not met
 - 4 consensus calls taken to list
 - Received recommendation that regardless, consensus call should be on line
- 2017 Meeting II - 6 June 2017
 - Will discuss Board actions regarding ChAC proposals
 - New Topics include:
 - SIGs & the ChAC
 - ChAC consensus procedures
- 2017 Meeting III - 12 September 2017
 - Set election schedule for 2018 Steering Committee
- Steering Committee meetings held monthly throughout the year

Internet Issues being discussed

Discussions focus on Internet Society and ISOC Chapter reaction and response to a variety of issues, including:

- Cybercrime legislation in the Pacific Islands
- DDOS attacks, IoT, and Best Practices
- Ensuring interoperability of data protection mechanisms and adoption of best practices at the national level
- Response to Digital Object Architecture (DOA)
- TIPP, TPP, TISA, WTO e-commerce agenda

Issue discussions can be initiated in either the ChAC itself or the SC.

Funding Issues being discussed

- Chapter leader participation in other Internet meetings
 - IETF for local chapter leaders who participate in IETF work but can't attend
 - ICANN
 - IGF
 - Supporting attendance by people on our expert list in specific events (e.g NANOG, IEEE, APRICOT ,ITU Regional)
- Support for ChAC activities.

Discussion was dormant waiting Board response to

Chapter Advisory Council Proposal on ISOC Improving Support for Chapters

Discussion will be woken

Procedural Issues being discussed

- Transparency of meetings, email lists
- Tools used to manage ChAC
- Status of SIGs within ChAC
- Low participation in ChAC meetings
- Changes to decision making
 - Move from 'consensus in meeting' to 'consensus on list' being considered
 - Formalizing time for reviews, consensus calls, &c.

Working Groups

- Making ISOC More Bottom Up (MIMBU)

- From Charter: <<https://app.box.com/notes/159866868988>>

ISOC needs to balance between being bottom-up and top-down kind of an organization. It needs to engage the people on the ground more: what matters to them, what do they consider dear and closer to their hearts, empower this very same people to implement some of their proposals - the element of bottom-up - as long as they are in-line with the global ISOC objectives - the element of top-down. We should find ways to lean more towards bottom-up and less on top-down approach. There is nothing as effective as supporting people in doing what they believe in - cheer them on as you make sure that they achieve the intended global goal. Chapters need more exposure on local, regional and global issues. We need a larger younger volunteer base.

- Improving Support for Chapters

- Report: <https://app.box.com/files/0/f/17980751144/1/f_97941893129>

Working Group (WG) within the Chapters Advisory Council (ChAC) whose purpose is to discuss and agrees ways in which ISOC could improve support for Chapters.

Upcoming

- Possible feedback on Staff/Board rejection of ChAC funding proposal for Chapters
- Possible feedback on Staff/Board rejection of increasing transparency of nomination process for ISOC fellows &c.
- IETF registration fee waiver for local Chapter Leaders who are active IETF participants without means to pay registration fee when IETF is in local area.
 - Basic proposal approved by ChAC
 - Implementation discussion required in Steering Committee that was pending results of Chapters Funding proposal before the Board.
