

BoT Meeting Nov 2016

Voting SW

Status and Options

Hans Peter Dittler

What are we looking for?

Voting Software

- Universal and for every purpose
 - For elections of a president of a country
 - For elections of board members (by our chapters or org-members)
 - For elections of officers
 - For voting in board meetings
- perhaps
 - no
 - not here
 - yes
 - yes

What do we really need?

- Easy setup (admin) yes
- Easy usage yes
- Remote access yes
- Access via Phone (APP) nice
- Confidential mostly
- Secure (access) somewhat
- Secure (manipulation) somewhat
- Votes might be changed (once / multiple) may
- Number of casted votes visible may
- Results visible (counting visible) may / no
- List of not-yet-voters no
- Open source ?
- Hosted / cloud / in-house ?

candidates

- | | | | |
|-------------------|----------------------|------------------|--------------------|
| • BigPulse | complicated (?) | • electionrunner | no immediate votes |
| • Doodle | admin sees voters | • Polleverywhere | polling tool |
| • Surveymonkey | polling tool | • Electionbuddy | SSL pays 18\$ |
| • Electionsonline | full election system | • Directorpoint | \$15 /user /month |
| • SimplyVoting | no immediate votes | • Balloteer | \$90 per vote |
| • BallotBin | Similar to Bigpulse | • Easypolls | works for polls |
| • IVS | pinpad required | | |

Thank you.

Hans Peter Dittler
