

# IAOC and IAD Report

## June 2016

Leslie Daigle

IAOC Chair

Ray Pelletier

IAD

June 14, 2016

# Acronyms

- IASA - IETF Administrative Support Activity
- IAOC - IETF Administrative Oversight Committee
- IAD - IETF Administrative Director (Ray Pelletier)

# 2016 Mid-year report

- Most *expenses* are on track
- Key questions at this point revolve around meetings
  - BA – new territory
  - Berlin
  - Seoul

# **THIS YEAR'S MEETINGS**

June 2016

IAOC Report

4

# Meetings' impact on 2016 budget

- Too soon to consider this a firm picture
- Should have more clarity by mid-August
  - Seoul sponsorships
  - Berlin initial numbers

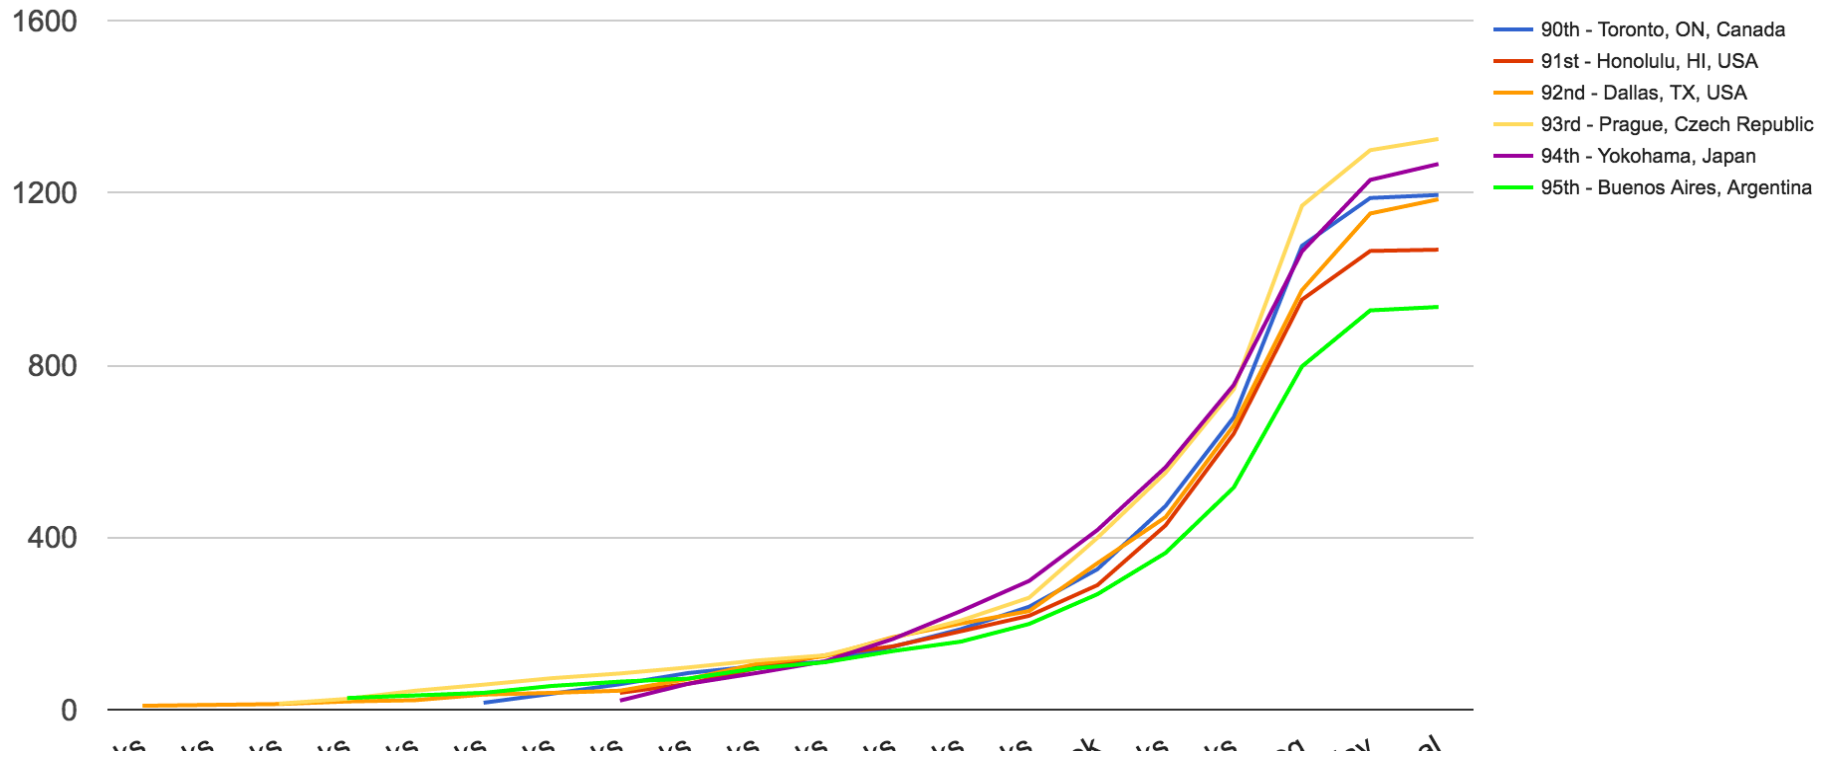

## Meetings Financial Picture Overview

<b><i>Revenues</i></b>	<b><i>Actual</i></b>	<b><i>Budget</i></b>	<b><i>Variance</i></b>
• Buenos Aires	\$997K	\$1,358K	(\$337K)
• Berlin		\$1,470K	
• Seoul		\$1,358K	
<b><i>Expenses</i></b>			
• Buenos Aires	\$918K	\$940K	\$22K
• Berlin		\$991K	
• Seoul		\$830K	

# IETF 95 – Buenos Aires

- Excellent engagement of local participants
  - 159 attendees from South America
  - Thanks to ISOC for support and advance outreach and awareness-raising activities
    - In particular – Christian O’Flaherty of ISOC’s Latin America Regional Bureau, and the ISOC Argentina Chapter, who helped with local officials re: visas and NOC equipment in customs
- Outstanding participation by remote attendees
  - 621 remote registrations, 104 from South America
  - The remote attendance platform is growing up well
- Attendance and sponsorship were lower than projected
  - Paid attendance 127 below forecast (-\$87K)
  - Sponsorships \$250K below Budget

# BA Paid Registration Graph: Weekly

# IETF 96 – Berlin

- Paid registrations trending Buenos Aires
  - but don't expect the registrations to flatten out as happened in BA
- No expected issues

# IETF 97 – Seoul

- Challenges
  - No success in finding a local host
  - Letters of invitation are always harder without local entity
- Working with some international corporations to co-sponsor
  - Hosts – Budget: \$330K
  - Recently–signed MoU at the \$100K level
  - Another MoU pending at \$250K level
- Other sponsors/support
  - Reception MoU pending at \$50K
  - Bits & Bites – need 3 more sponsors to meet budget
  - Working on Letters of Invitation sponsor
- Expect to have fuller answers in the coming weeks

# **FUTURE MEETINGS**

# Upcoming meetings, recap

## **2016**

- |                  |          | <i>Host</i> |
|------------------|----------|-------------|
| • IETF 96 Berlin | July     | Juniper     |
| • IETF 97 Seoul  | November | TBD         |

## **2017**

- |                      |          |                    |
|----------------------|----------|--------------------|
| • IETF 98 Chicago    | March    | TBD                |
| • IETF 99 Prague     | July     | Comcast-NBCU-CZNIC |
| • IETF 100 Singapore | November | Cisco              |

## **2018**

- |                          |       |         |
|--------------------------|-------|---------|
| • IETF 101 Europe        | March | TBD     |
| • IETF 102 San Francisco |       | Juniper |
| • IETF 103 Asia          |       | TBD     |

# The one we've all been talking about...

- Overview of this section
  - IETF 100 – the issue
  - What the IAOC did in response
  - What the community did
  - Where we are, now
  - What's next

# IETF 100

- After lengthy negotiations, announced at IETF 95, an issue was raised that had not been adequately researched:
  - Singapore has laws that discriminate against a segment of our community, namely LGBTQ people

# What the IAOC did in response

- The IAOC reviewed specialty travel sites, and confirmed there is no expectation that anyone traveling to IETF 100 should be inappropriately treated, for all segments of our community
- Reviewed other known (“tried & true”) sites for availability, with preference in Asia, as alternates on the IETF 100 dates
- Started putting out near-term meeting cities for review by community before signing contracts to crowd-source barriers to success, access, and inclusiveness

# What the IETF community did

- Had a long discussion about the importance of inclusion and diversity, the impacts and perceptions of having a meeting in Singapore or canceling the meeting in Singapore
- The inclusion/diversity discussion is ongoing

# Where we are at now

- The IAOC, after reviewing potential impacts, alternate site availability and consulting with the IESG, decided to keep IETF 100 in Singapore
  - See detailed explanation to the community: <https://www.ietf.org/mail-archive/web/ietf/current/msg98583.html>
- We are very appreciative of the IETF 100 host's support and flexibility through this process

# What's next...

- The discussion needs to continue in the community
- The IAOC very much looks forward to the community's consensus on more concrete requirements for meeting venue selection going forward
  - MTGVENUE WG being formed in General Area
    - Follows on the work the IAOC started earlier this year with [draft-baker-mtgvenue-iaoc-venue-selection-process](#)
- Process updates: there are and will be more opportunities for community comment on meeting venues
- IASA review: by the end of the year we plan to launch a review of IASA after 10+ years of its functioning

# OTHER UPCOMING

# Projects, Tools, Contracting Update

- IETF Website Revamp to be completed by Berlin
- Tools Maintenance Program updated to focus on some additional maintenance, transition (to AMS) and training of personnel for tools developed to date
  - Managed under the existing Technology Management Committee
  - Impact in 2016: re-assignment of existing budget
  - Impact for 2017: tools budget items will show a different balance between development and ongoing maintenance
    - Natural, as existing tools age

# Thank You
