# IANA Activity since IETF 84 (thru 30 Sep 2012)

- Improved integration of IANA and IETF tools:
  - Working with IETF Tools Team to display the IANA state in the datatracker for approved I-Ds
  - Beta testing insertion of Last Call comments from IANA directly into the datatracker database
  - Beta testing to display datatracker states in the IANA ticketing system, which will allow IANA to move forward with closer integration of their systems with datatracker
- XML conversion of registries project coming to a close

# Modern Global Standards Paradigm

- Bernard Aboba, as the IAB Chair, and Russ Housley, as the IETF Chair, signed an affirmation of the ***Modern Global Standards Paradigm*** on 29 August 2012
- IAB plans to publish an informational RFC to document the principles and record the event
- Learn more about the principles here:
