"We can evade reality, but we cannot evade the consequences of evading reality." –Ayn Rand

Experience from the Training

My training with ISOC on encryption

- Was eye opening to issues of data protection and secure communication
- The importance of information encryption from a media perspective

Implementing an initiative either in a video, audio, audio -visual, researched article or blog form was a good way to see participants.

- Apply knowledge gain to problem solving
- To finding solution to existing problem

Thank you.
