• Digital Security Trainer and Consultant
• Project Manager at Encrypt Uganda
INTRODUCTION TO DIGITAL SECURITY

Digital Security is the protection of one’s digital personality, as it represents the physical identity on the network you are operating on or the internet service in use. Digital Security includes the tools which one uses to secure his/her identity, assets, and technology in the online and mobile world.
### Digital Trends in Uganda in 2020

<table>

Protecting Your Information on Facebook
SCENARIOS

My account has just been stolen by a stranger. How do I recover my account and report this to Facebook?

OR

Hackers have created a fake account with my name and pictures. What should I do?
Your account could be hacked if:

1. Your email or password have changed
2. Your name or birthday have changed
3. Friend requests have been sent to people you don't know
4. Messages have been sent that you didn't write
5. Posts have been made that you didn't create
To report visit: www.facebook.com/hacked
Securing your accounts on Facebook

There are two main ways for you to secure your account on Facebook:

1. Two Factor Authentication
2. Login Alerts
To turn on or manage two-factor authentication

• Go to your Security and Login Settings by clicking in the top-right corner of Facebook and clicking Settings > Security and Login.
• Scroll down to Use two-factor authentication and click Edit
• Choose the authentication method you want to add and follow the on-screen instructions
• Click Enable once you've selected and turned on an authentication method
Two Factor Authentication (2FA)
Two Factor Authentication (2FA)
Avoid public information like your name + a password unique to Facebook + don't share your password
Keeping your accounts safe from hackers

1. Enable login notifications
2. Check active sessions on Facebook
3. Pick a strong Password
4. Change your password regularly and never give it to someone you do not know and trust
Keeping your accounts safe from hackers

5. Turn on two-factor authentication

6. Make sure your email account is secure

7. Log out of Instagram when you use a computer or phone you share with other people

8. Think before you authorize a third party app
