Topic of OMAC Roundtable #5

Introduction to Learning @ Internet Society: Building Human Capital Around Internet Policy Issues. This roundtable was organized to shine the light on a free learning opportunity for your teams, included in your membership.

Key Take Away

- Learning @ Internet Society: <https://www.internetsociety.org/learning/> was an eye opener for the participants as it showed the learning opportunities for the teams in their organizations: <https://www.internetsociety.org/wp-content/uploads/2021/12/Org-Membership-November-2021-call-Elearning.pptx>
- Key learning needs in the Internet ecosystem that were identified by the participants:
 - Learning and building skills in Cybersecurity, as incidents of Cyber-attacks are becoming very common in our days (every 11 seconds in 2021).

- Promoting the importance of Internet Governance: <https://www.internetsociety.org/learning/internet-governance/> across educational and research institutions- For example, Universities and NRENs.

Discussion Points

- Learning @ Internet Society offers the opportunity for people to succeed as future Internet technology, policy, and business leaders.
- The courses are currently available to Internet Society organization members at no cost.
- Courses cover technical, policy/advocacy, and business topics while building knowledge and career skills.
- All courses are available in formats friendly to the different connectivity circumstances, and once downloaded they are also accessible offline.

Next Steps

- You can find the current course package on Learning @ ISOC platform: <https://www.internetsociety.org/learning/>. These courses are included in your membership and available for your teams.
- The 2022 course package will be shared with all organization members, if you'd like to include these courses in your organization's learning program, please contact us: orgmembership@isoc.org.
- You can share our courses related to cyber security and Internet Governance that are also available to your teams.
- If you have feedback or would like to contribute your learning expertise within our community, please contact us: orgmembership@isoc.org.
