

PASSED PIONEERS

David Vyorst

January 14, 1961 - December 5, 2017

John More

March 3, 1942 – September 29, 2022

In 2010, David Vyorst and John More, as Executive Director and Treasurer respectively, together steered the rejuvenation of the Washington DC Chapter, and then nurtured its continued growth into a well respected participant in Internet policy affairs, including organizing the annual Internet Governance Forum USA (IGF-USA) starting in 2014.

They are fondly remembered and much missed. Their passing leaves big shoes to fill, as the current chapter leadership looks to build on the solid foundation they built.
