

2024 Training and e-Learning Course Calendar

[Enroll in Courses](#)

Moderated Courses

These courses are offered through the platform with the support of a moderator and a tutor. The moderator ensures all administrative issues are addressed and the tutor provides the technical expertise and answers all questions related to the subject matter.

In a moderated course, the moderator and the tutor meet with the registered learners in a live session for one hour per week for the duration of the course.

One or two modules are released each week and a course has a set time of four to six weeks for completion.

Introduction to Network Operations

- Cycle 1 15 January–11 February
- Cycle 2 08 April–05 May
- Cycle 3 08 May–10 June
- Cycle 4 30 September–27 October

Advanced Network Operations 2.0

- Cycle 1 15 January–11 February
- Cycle 2 08 April–05 May
- Cycle 3 08 May–10 June
- Cycle 4 30 September–27 October

Encryption

- Cycle 1 15 January–11 February
- Cycle 2 08 April–05 May
- Cycle 3 08 May–10 June
- Cycle 4 30 September–27 October

Internet Governance

- Cycle 1 29 January–25 February
- Cycle 2 08 April–05 May
- Cycle 3 08 May–10 June
- Cycle 4 30 September–27 October

Fundamentals of Designing and Deploying Computer Networks

- Cycle 1 15 January–25 February
- Cycle 2 08 April–19 May
- Cycle 3 24 June–04 August
- Cycle 4 30 September–10 November

Mutually Agreed Norms for Routing Security (MANRS)

- Cycle 1 15 January–11 February
- Cycle 2 08 April–05 May
- Cycle 3 24 June–21 July
- Cycle 4 30 September–10 November

Community Networks Readiness Assessment

- Cycle 1 15 January–25 February
- Cycle 2 08 April–19 May
- Cycle 3 24 June–04 August
- Cycle 4 30 September–10 November

Self-Paced Courses

Self-paced courses are offered through the LMS without a moderator or a tutor. The learner is free to take the courses in their own time and at their own pace.

Tracks

In 2024, the Internet Society will recognize learners have acquired knowledge and skills by taking more than one course in an area of specialization. When learners successfully complete a track, they earn a certificate of completion and qualify to join our alumni network.

Network Operations Specialist

This certification is for those who have completed:

- Fundamentals of Designing and Deploying Computer Networks
- Introduction to Network Operations 1.0
- Advanced Network Operations 2.0
- IPV6

Online Safety Specialist

This certification is for those who have completed:

- Digital Footprints
- Privacy
- Encryption
- Internet Security

Internet Defense Champion

This certification is for those who have completed:

- What the Internet Needs to Exist
- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Fundamentals of Designing and Deploying Computer Networks

Internet Policy and Advocacy Champion

This certification is for those who have completed:

- What the Internet Needs to Exist
- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Encryption
- Internet Governance

GovernmentTrack - Internet Policy and Advocacy Champion

This certification is for those who have completed:

- What the Internet Needs to Thrive
- How to Write an Internet Impact Brief
- Government Encryption
- Internet Governance
